

Sorry ...

The database of our classmates information is no longer available online.

I decided to remove it, because of concern for privacy and security. Lots of personal information (addresses, phone numbers, kids names, etc.), and I found that the information and the file was coming up in Google searches.

However, if any classmates would like a copy of the database, I would be happy to email it to you. Just let me know.

See you at the next reunion!
